

**BARBER**

# Stainless

# Tines

*At BARBER, we are continually improving our equipment by adding new technology and higher quality components.*

*We are replacing our old style tine with a new stainless steel alloy tine.*

**S**ainless  
**S**teel

- *Tine life is doubled*
- *High quality stainless alloy*
- *Will not rust or corrode*
- *Can be retrofitted to all existing machines*

*\* The Stainless Steel Tines are bronze color due to the heat treating process, which strengthens the tines.*
